

HACIENDA DEL ALAMO GOLF COURSE - FUENTE ALAMO, MURCIA

Hacienda Del Alamo Golf Resort opened in 2006 and has become a favourite for golfers visiting Murcia in Spain ever since. The course was designed by Dave Thomas to test golfers of all abilities.

From the back tees the par 72 course measures 6,724 metres and it is one of the longest courses in Spain. It meanders through the almond and olive orchards enhanced with several new lakes and cascades to make the course visually outstanding.

They have been particularly careful to ensure that the integration of housing does not affect or interfere with the golfing experience.

Many of the long par 4 holes are well protected by steep bunkers at the front and sides of the green so you have to make the difficult choice of go for it or layup and rely on your chipping game.

Hacienda Del Alamo Golf boasts a modern driving range which has 6 full golf holes and two putting greens providing new golfers with a fantastic environment to learn the game.
