

## LA MARINA

**La Marina** is officially part of San Fulgencio and can be divided into two distinct areas, the old village which is on the beach side of the N332 coastal highway and the urbanization of La Marina which is on the inland side of the same N332 highway.

The old village of La Marina has a long high street with a small selection of shops, bars and cafes. You can relax on the long sandy beach, picnic underneath the pine trees or take a walk through the sand dunes in the El Pinet Natural Park.

The urbanization of La Marina has various commercial zones with shops, restaurants and bars which offer a great selection of international cuisine and lively nights out. There is a helpful tourist office, a town hall, a market every Thursday and Sunday morning and several green areas, one of which is the El Oasis Natural Park which has picnic tables, barbecue areas, football pitch and small man made lake.
