

LAS RAMBLAS GOLF COURSE - ORIHUELA COSTA, ALICANTE

Las Ramblas Golf Course opened in 1990. The course was designed by Pepe Gancedo who has used the natural terrain of hills, valleys and ravines to create a golf course that will test your accuracy more than distance.

The vigorous vegetation surrounding the course is formed primarily of leafy Mediterranean pines that create an unforgettable backdrop along with some outstanding views of the Mediterranean Sea.

Las Ramblas Golf is set in fantastic woodland and idyllic Costa Blanca countryside surroundings.

The course is a blend of challenges and tranquility providing you can keep your calm during your round of golf.

It is located next to Real Club Campoamor Golf and Villamartin Golf, yet far enough away from the hustle and bustle of the tourist areas so as to enjoy a relaxing game without disturbance, but is also within a short driving distance of places like Torrevieja and the Orihuela Costa with award winning beaches, should you wish to venture there afterwards.
