

VISTABELLA GOLF COURSE - URB. ENTRE NARANJOS, ORIHUELA/JACARILLA, ALICANTE

Vistabella Golf Course was opened in September 2009 and was designed by Manuel Piñero, who was an International Pairs Champion with "Seve" Ballesteros.

The course, once a citrus grove, covers over 34 hectares and is scattered with a vast number of different species of trees and bushes, including three majestic pines that can be seen from almost anywhere on the course. These pines form the symbol and logo of the course.

The course originally was only 11 holes but has since been upgraded to the full 18 holes and is over 6,000 metres long, Manuel Piñero has designed a great test of golf including his trademark heavily contoured greens, also rolling hills and lakes and is a great test of golf for all handicaps.

Facilities include

Clubhouse
